

My comment is regarding LPFM radio stations taking priority over current FM translator stations. Cheyenne Wyoming is a somewhat rural community, and is not served by a large number of stations. K-LOVE radio is one of the few Christian stations we can pick up. Losing the ability to pick up K-LOVE would cut this type of programming to our community by 25-30%. We have a plethora of country, rock and talk stations, however a very small number of Christian stations. Because Christian stations transmit programming that is safe for the whole family to listen to, losing a station like K-LOVE would make it much harder for many families to enjoy current music and news together. I urge you not to expand LPFM stations to take priority over current FM translator stations.
